PROJECT SUN STREAK (U)

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER: 8806 SESSION NUMBER: 1
DATE OF SESSION: 16 FEB 88 DATE OF REPORT: 16 FEB 88
START: 0841 END: 0954
METHODOLOGY: CRV VIEWER IDENTIFIER: 011

1. (S/NF/SK) MISSION: See tasking data sheet, attached.
2. (S/NF/SK) VIEWER TASKING: The entire session was conducted utilizing Stage 6 tools in conjunction with a map of Lebanon (supplied). The session was conducted in four parts:
 - 1) Using the horse racing track (335245N/353045E) as a reference point, 011 determined the direction to Terry Waite-present location. (see diagram labeled w/s 1). It was determined that the location was to the east of the river and that a church was nearby. Also, the sound of trains was noticeable at this location; but 011 feels that the church is nearer to the target than the RR.
 - 2) 011 was next directed to use the stadium (335325N/353250E) as a reference point, again determining the direction to the target person's location. The location and direction are indicated (on w/s 2). 011 was next asked to determine the general direction, from Waite's position, of the church that which was perceived earlier. This was labeled, also.
 - 3) Worksheet (w/s) 3 was used in an attempt to get a better directional fix on the church. 011 had difficulty with this because there seems to be several churches in the area and in the same general direction from the target.
 - 4) 011 was next instructed to turn attention completely to the church which had been originally perceived. Sketches and descriptions of it may be found on pages 4-5. This church is located within blocks of the target's location, which, based upon the data, appears to be somewhere in the vicinity of 335340N/353230E (in the BURJ HAMMUD district of the city).
3. (S/NF/SK) COMMENTS: Please note that there is a government dispensary in this section of the city which, based upon earlier work (Viewers 095 and 011, both on 5 Feb 88 [Target #5056]) could match a description of the target building. Subsequent sessions will be used to reacquire further describe the target building exterior (see 011 session on 5 Feb 88/target #5056). Future work on this projected could be greatly assisted through the use of a street map!
